

# Retrospective notes

## *Sprint 5*

### **Did we improve on the things we said we needed to improve?**

“

1. Better workload distribution
2. Communication
3. Daily scrum

“ - notes from the last retrospective meeting

1. Stagnant.
2. No real problem.
3. No improvement, but haven't really been needed.

### **What went well this sprint?**

1. Planned and finished everything well.
2. Everybody knew what to do.
3. Not too much work to do (not really a fault of this sprint but good planning on previous sprints so we weren't stressed the last days.)

### **What didn't go well?**

1. Some minor details, nothing major.
