# Review notes

*Sprint 2*

**Accepted items in backlog:**
- As a user I want to notice that the alarm has been activated
- As a user I want to be able to shut off an alarm
- As a user I want to be able to create multiple alarms
- As a user I want to browse all my alarms

**Unaccepted items in backlog:**

**Demo:**
The current application can now set multiple alarms, browse those alarms, show a new activity, start sound and vibration when one of those alarms activate, shut off the alarm that activates with a button on the screen
