Retrospective notes

Sprint 3

Did we improve on the things we said we needed to improve?
"
1. Distribute the workload better at the sprint planning
2. Team members who complete their work need to take initiative and work on other things
3. Daily scrums:
    a. Pre-determined place and time
" - previous sprint

1. Could be a lot better
2. Improved, but could still be better
3. Improved, but could still be better
    a. e.g. planning times at end of daily scrums

What went well this sprint?
A lot of code has been committed and we are making good progress on our product items.
Documenting has also come a long way.

What didn't go well?
Workload distribution
Daily scrums

What can we change so we can do a better work next sprint?
Keep working on workload distribution and group member involvement
