Sprint Retrospective

Sprint 1

What went well:
The alarm works

What went bad:
Certain, unnamed, team members need better discipline
Meetings were uneffective
No daily scrums

What can be changed so we can work better next sprint:
Keep to the time limits for the meetings
Have an agenda prior to meetings
Have daily scrums during lunch
Improve coding-discipline - need to organise ourselves and code together
Better communication within team, we need to know who is doing what

~
